

# iCan love

**Preparation:** For each person, you'll need a birthday candle and handful of clay. You'll also need a Bible, a large candle and matches.

Give each family member a handful of clay and a birthday candle. Ask everyone to form their clay into a heart shape then poke their candle into the clay. Each person now has a candle stand.

One parent light the large candle, then use the flame to light each of the birthday candles, one at a time.

**Read John 13:34.**

**Ask:**

How did the fire spread from the light of one candle?

How is God's love like the flame in the large candle?

**Say:**

God asks us to love one another as he loves us. God wants us to spread his never-ending love to others.

Have each family member tell one way that they will spread God's love to others this week, for example "hug them" or "be nice to new people in school" or "smile at people". Pray that each of you could spread God's love.

Have everyone blow out their candles. Encourage them to place their heart-shaped candle on the kitchen table to remind them to share God's love with everyone everyday.

**iCan make a difference**
